

MONTESSORI CHILDREN'S HOUSE OF HATWARD

MAY NEWSLETTER 2017

Kindergarten Rm-2

Dear Parents

Thank you for your support for April's activities. It would not have been successful without your help.

April Highlights:

The children loved wearing their favorite baseball caps and jerseys for Baseball Day. In celebration of the opening season the children had a group picture taken wearing the colors of their favorite baseball team. The Easter Party was very successful. Everyone enjoyed the treats, hunting for Easter eggs and wearing their favorite spring colors.

Earth Day was a wonderful day to celebrate our love for Mother Earth. The children wore colors of blue, green, brown, white, and yellow. We read books about our planet earth and how to keep it litter free. The children are learning so much from our lively classroom. A presenter from the Insect Discovery Lab brought to our classroom the world of diverse insects and arthropods. The children could hold the insects in their hands and listen to stories

about the lives of the beetle, millipede, and walking stick.

The Discovery Engineering Lab visited our Montessori School. The presenters used science, technology, and engineering activities to enhance children's mental and physical capabilities. The topic was the anatomy of brain and how we use it in our lives.

The finale for the month of April was the kindergarten jog-a-thon it was fabulous. The 3rd year students participated throughout the game activities as helpers to ensure the program ran smoothly. The 2nd and 1st year students cheered on as the kindergarteners crossed the finish line for their relay races.

Cultural May Events:

We will study Africa for Geography, mammals for Zoology and fruits and vegetables for Botany.
