

MAY OF OUR CLASSROOM

LISA's class

As we begin the month of May, we hope we will be able to enjoy the beautiful weather, sunny, warm and many beautiful spring days.

We have had a busy April. During April, the children had a lot of fun enjoying a variety of activities. Some of our fun themes included a Recycling project – Earth day, where we discussed the many ways can protect our environment. We practiced recycling by conducting a project to make binoculars with recycled materials.

CINCO DE MAYO FIESTA:

On Wednesday May 5th our children will be celebrating Cinco de Mayo in the classroom with some fun activities.

Mother's Day:

On Friday May-6, Children will be making flowers for their mom for Sunday-Mother's day.

Special event: On Friday June 17th at 12:30 PM (instead June-24 as the school calendar schedule before), we will be having celebrating graduation for all children in our classroom. We will combine the morning class and the afternoon class together. Children and families are be welcome to attend our graduation. Please feel free to dress up your child and come together to receive the preschool certificate for school year 2021-2022. While observing social distancing, we'll be taking pictures to celebrate the event. (Mask required to enter our classroom).

Happy mother's day to all moms.

CALENDAR on May
